Dietary fibre in health and disease. General aspects of dietary fibre
(Symposium Proceedings: 27–30 May 2002)

Chairs: D. Kritchevsky, *The Wistar Institute, Philadelphia, PA, USA;* **M. Eastwood,** *Hill House, North Queensferry, Fife, UK*

Introduction.
M. Eastwood 1
Dietary fibre analysis.
B. V. McCleary 3–9
Dietary fibre intake and clinical indices in the French Supplementation en Vitamines et Minéraux AntioXydants (SU.VI.MAX) adult cohort.
D. Lairon, S. Bertrais, S. Vincent, N. Arnault, P. Galan, M.-C. Boutron & S. Hercberg 11–15
Dietary fibre in infancy and childhood.
C. A. Edwards & A. M. Parrett 17–23
Whole grain consumption and weight gain: a review of the epidemiological evidence, potential mechanisms and opportunities for future research.
P. Koh-Banerjee & E. B. Rimm 25–29
Colonic diverticula.
M. Eastwood 31–36
On defining dietary fibre.
J. W. DeVries 37–43

Dietary fibre in health and disease. Whole cereal grains, fibre and human cancer
(Symposium Proceedings: 27–30 May 2002)

Chair: M. Hill, *South Bank University, London, UK*

Wholegrain cereals and cancer in Italy.
C. La Vecchia, L. Chatenoud, E. Negri & S. Franceschi 45–49
Can resistant starch and/or aspirin prevent the development of colonic neoplasia? The Concerted Action Polyp Prevention (CAPP) 1 Study.
J. C. Mathers, I. Mickleburgh, P. C. Chapman, D. T. Bishop & J. Burn 51–57
Diet and cancer: where are we and where are we going?
G. Rennert 59–62
Dietary fibre and colon cancer: where do we go from here?
M. Hill 63–65

Dietary fibre in health and disease. Short-chain fatty acids
(Symposium Proceedings: 27–30 May 2002)

Chairs: J. C. Mathers, *University of Newcastle, Newcastle upon Tyne, UK;* **T. Sakata,** *Ishinomaki Senchu University, Ishinomaki, Japan*

Regulation of short-chain fatty acid production.
S. Macfarlane & G. T. Macfarlane 67–72
Influences of probiotic bacteria on organic acid production by pig caecal bacteria *in vitro*.
T. Sakata, T. Kojima, M. Fujieda, M. Takahashi & T. Michibata 73–80
New insight into butyrate metabolism.
K. E. Bach Knudsen, A. Serena, N. Canibe & K. S. Juntunen 81–86

Production rates and metabolism of short-chain fatty acids in the colon and whole body using stable isotopes.
E. Pouteau, P. Nguyen, O. Ballèvre & M. Krempf 87–93
Motor effects of short-chain fatty acids and lactate in the gastrointestinal tract.
C. Cherbut 95–99
Molecular analysis of the effect of short-chain fatty acids on intestinal cell proliferation.
H. M. Blottière, B. Buecher, J.-P. Galmiche & C. Cherbut 101–106
Anti-cancer effects of butyrate: use of micro-array technology to investigate mechanisms.
E. A. Williams, J. M. Coxhead & J. C. Mathers 107–115

Dietary fibre in health and disease. Health effects of whole grains
(Symposium Proceedings: 27–30 May 2002)

Chairs: J. Slavin and L. Marquart, *University of Minnesota, Minneapolis, MN, USA*

Process-induced changes on bioactive compounds in whole grain rye.
K.-H. Liukkonen, K. Katina, A. Wilhelmsson, O. Myllymäki, A.-M. Lampi, S. Kariluoto, V. Piironen, S.-M. Heinonen, T. Nurmi, H. Adlercreutz, A. Peltoketo, J.-M. Pihlava, V. Hietaniemi & K. Poutanen 117–122
Who consumes whole grains, and how much?
R. Lang & S. A. Jebb 123–127
Why whole grains are protective: biological mechanisms.
J. Slavin 129–134
Whole grains protect against atherosclerotic cardiovascular disease.
J. W. Anderson 135–142
Epidemiological support for the protection of whole grains against diabetes.
M. A. Murtaugh, D. R. Jacobs Jr, B. Jacob, L. M. Steffen & L. Marquart 143–149
Whole grain health claims in the USA and other efforts to increase whole-grain consumption.
L. Marquart, K. L. Wiemer, J. M. Jones & B. Jacob 151–160
Wholegrain health claims in Europe.
D. P. Richardson 161–169

Dietary fibre in health and disease. Nutrients contributing to the fibre effect
(Symposium Proceedings: 27–30 May 2002)

Chairs: N. Asp, *Lund University, Lund, Sweden;* **M. Roberfroid,** *Universite Catholique de Louvain, Brussels, Belgium*

Resistant starch as a prebiotic and synbiotic: state of the art.
D. L. Topping, M. Fukushima & A. R. Bird 171–176
Oligosaccharides: state of the art.
N. M. Delzenne 177–182
Dietary fibre and prebiotics in infant formulas.
J. Ghisolfi 183–185
Importance of processing for physico-chemical and physiological properties of dietary fibre.
E. M. G.-L. Nyman 187–192
Rye, lignans and human health.
G. Hallmans, J.-X. Zhang, E. Lundin, P. Stattin, A. Johansson, I. Johansson, K. Hultén, A. Winkvist, P. Lenner, P. Åman & H. Adlercreutz 193–199
The glycaemic index: importance of dietary fibre and other food properties.
I. Björck & H. L. Elmståhl 201–206

Dietary fibre in health and disease. Physiological aspects of fibre
(Symposium Proceedings: 27–30 May 2002)

Chairs: C. Bonfield, *University of Newcastle, Newcastle upon Tyne, UK;* **P. Dettmar,** *University of Gunma, Gunma-ken, Japan;* **M. Chaplin,** *South Bank University, London, UK;* **G. Phillips,** *The North East Wales Institute, Wrexham, UK;* **M. Pignatelli,** *Bristol Royal Infirmary, Bristol, UK;* **J. Pearson,** *Reckitt Benckiser Healthcare (UK) Ltd, Kingston upon Hull, UK*

The active fraction of psyllium seed husk.
J. A. Marlett & M. H. Fischer 207–209

Molecular weight, tertiary structure, water binding and colon behaviour of ispaghula husk fibre.
S. Al-Assaf, G. O. Phillips, P. A. Williams, S. Takigami, P. W. Dettmar & M. E. Havler 211–216

Primary structure of arabinoxylans of ispaghula husk and wheat bran.
S. Edwards, M. F. Chaplin, A. D. Blackwood & P. W. Dettmar 217–222

Fibre and water binding.
M. F. Chaplin 223–227

Abnormalities of the cadherin–catenin complex in chemically-induced colo-rectal carcinogenesis.
E. Tucker, A. Buda, N. Janghra, J. Baker, J. Coad, M. Moorghan, M. E. Havler, P. W. Dettmar & M. Pignatelli 229–236

Colonic mucin: methods of measuring mucus thickness.
V. Strugala, A. Allen, P. W. Dettmar & J. P. Pearson 237–243

Colonic mucus: secretion and turnover in relation to dietary fibre intake.
I. A. Brownlee, M. E. Havler, P. W. Dettmar, A. Allen & J. P. Pearson 245–249

Obituary

Professor Christopher Pennington
The CNMG Committee 251–252

Nutrition of farm animals outdoors *(Symposium Proceedings: 2–5 July 2002)*

Chair: R. J. Dewhurst, *Institute of Grassland and Environmental Research, Aberystwyth, UK*

Intake of nutrients from pasture by poultry.
A. Walker & S. Gordon 253–256

Intake of nutrients from pasture by pigs.
S. A. Edwards 257–265

The accumulation of potentially-toxic metals by grazing ruminants.
J. M. Wilkinson, J. Hill & C. J. C. Phillips 267–277

Plants and plant extracts for improving animal productivity.
H. Greathead 279–290

Nutritional limitations to increased production on pasture-based systems.
E. S. Kolver 291–300

Plenary Lectures *(2–5 July 2002)*

Chairs: V. R. Wheelock, *Verner Wheelock Associates Ltd, Skipton, UK;* **J. Blundell,** *University of Leeds, Leeds, UK*

Engineering plants for animal feed for improved nutritional value.
P. E. V. Williams 301–309

The co-evolution of people, plants, and parasites: biological and cultural adaptations to malaria.
N. L. Etkin 311–317

Fatty acids, forages and food quality *(Symposium Proceedings: 2–5 July 2002)*

Chair: H. Miller, *University of Leeds, Leeds, UK*

Conjugated linoleic acid and its effects on animal products and health in single-stomached animals.
M. J. Azain 319–328

Forage breeding and management to increase the beneficial fatty acid content of ruminant products.
R. J. Dewhurst, N. D. Scollan, M. R. F. Lee, H. J. Ougham & M. O. Humphreys 329–336

Determinants of meat quality: tenderness.
C. Maltin, D. Balcerzak, R. Tilley & M. Delday 337–347

Polyunsaturated fatty acids and gene expression in mammalian systems.
K. W. J. Wahle, D. Rotondo & S. D. Heys 349–360

Exploitation of medicinal properties of plants by animals and man through food intake and foraging behaviour *(Symposium Proceedings: 2–5 July 2002)*

Chair: I. Kyriazakis, *Scottish Agricultural College, Penicuik, UK*

Can animals use foraging behaviour to combat parasites?
M. R. Hutchings, S. Athanasiadou, I. Kyriazakis & I. J. Gordon 361–370

Animal self-medication and ethno-medicine: exploration and exploitation of the medicinal properties of plants.
M. A. Huffman 371–381

Consequences of plant phenolic compounds for productivity and health of ruminants.
G. C. Waghorn & W. C. McNabb 383–392

Micronutrient supplementation: when and why? *(Symposium Proceedings: 2–5 July 2002)*

Chair: H. J. McArdle, *Rowett Research Institute, Aberdeen, UK*

Selenium supplementation: does soil supplementation help and why?
J. R. Arthur 393–397

Can human micronutrient status be improved by supplementing domestic animals?
S. Bügel 399–402

Micronutrient fortification of plants through plant breeding: can it improve nutrition in man at low cost?
H. E. Bouis 403–411

Micronutrient supplementation: when is best and why?
M. R. L'Abbé, K. A. Cockell & N. S. Lee 413–420

Postgraduate Symposium *(Symposium Proceedings: 2–5 July 2002)*

Chair: J. Cade, *University of Leeds, Leeds, UK*

Prolactin, prolactin receptor and uncoupling proteins during fetal and neonatal development.
S. Pearce, A. Mostyn, M. C. Alves-Guerra, C. Pecqueur, B. Miroux, R. Webb, T. Stephenson & M. E. Symonds 421–427

Vitamin C and bone markers: investigations in a Gambian population.
K. Munday 429–436

Folate, DNA methylation and colo-rectal cancer.
M. Pufulete, P. W. Emery & T. A. B. Sanders 437–445

n-3 Polyunsaturated fatty acids, inflammation and obesity-related disease.
L. M. Browning 447–453

Behavioural, attitudinal and dietary responses to the consumption of wholegrain foods.
A. T. Smith, S. Kuznesof, D. P. Richardson & C. J. Seal 455–467

The role of polyphenolic compounds in the diet as inhibitors of platelet function.
G. P. Hubbard, S. Wolffram, J. A. Lovegrove & J. M. Gibbins 469–478
Changes in haemostasis during normal pregnancy: does homocysteine play a role in maintaining homeostasis?
V. A. Holmes 479–493

Protein intake and chronic disease *(Symposium Proceedings: 2–5 July 2002)*

Chair: P. Emery, *University College London, London, UK*

Protein intake and blood pressure in cardiovascular disease.
P. Elliott 495–504
Calcium and protein in bone health.
B. Dawson-Hughes 505–509
Regulation of bone cell function by acid–base balance.
T. Arnett 511–520

Control of energy balance in health and disease *(Symposium Proceedings: 2–5 July 2002)*

Chair: P. Calder, *University of Southampton, Southampton, UK*

Body composition in childhood: effects of normal growth and disease.
J. C. K. Wells 521–528
Techniques for the study of energy balance in man.
M. Elia, R. Stratton & J. Stubbs 529–537
Energy balance in obesity.
J. Webber 539–543
Energy balance in critical illness.
L. D. Plank & G. L. Hill 545–552

The interface between evidence, policy and practice in public health nutrition *(Symposium Proceedings: 2–5 July 2002)*

Chair: F. Rabiee-Khan, *University of Central England, Birmingham, UK*

Evidence *v.* rights-based decision making for nutrition.
R. Shrimpton 553–562
Food and nutrition policies of Nordic countries: how have they been developed and what evidence substantiates the development of these policies?
U. Kjærnes 563–570

Nutrition: communicating the message *(Symposium Proceedings: 30 May 2002)*

Chairs: C. Seal, *University of Newcastle, Newcastle, UK;* **R. Pickard,** *British Nutrition Foundation, London, UK*

Scene setting: who is the voice of nutrition in Britain?
J. Buttriss 573–575
Improving communication to tackle obesity in the UK.
S. A. Jebb, R. Lang & A. Penrose 577–581
Diet and cardiovascular disease in the UK: are the messages getting across?
C. N. M. Kelly & S. A. Stanner 583–589
Is there more to folates than neural-tube defects?
P. M. Finglas, A. J. A. Wright, C. A. Wolfe, D. J. Hart, D. M. Wright & J. R. Dainty 591–598
Plant polyphenols: are they the new magic bullet?
G. G. Duthie, P. T. Gardner & J. A. M. Kyle 599–603
Nutrition and cancer prevention: diet–gene interactions.
J. C. Mathers 605–610

Physical activity, energy expenditure and obesity
(Symposium Proceedings: 23–24 July 2002)

Chairs: N. Hoggard, J. Mercer and J. R. Stubbs, *Rowett Research Institute, Aberdeen, UK;* **I. Broom,** *Grampian Universities Health Trust, Aberdeen, UK*

Physical activity interventions in the prevention and treatment of paediatric obesity: systematic review and critical appraisal.
J. J. Reilly & Z. C. McDowell 611–619

Physical activity and resting metabolic rate.
J. R. Speakman & C. Selman 621–634

Uncoupling protein 3 and physical activity: the role of uncoupling protein 3 in energy metabolism revisited.
P. Schrauwen & M. Hesselink 635–643

Impacts of vigorous and non-vigorous activity on daily energy expenditure.
K. R. Westerterp 645–650

Cross talk between physical activity and appetite control: does physical activity stimulate appetite?
J. E. Blundell, R. J. Stubbs, D. A. Hughes, S. Whybrow & N. A. King 651–661

Energy expenditure, physical activity and body-weight control.
L. Tappy, C. Binnert & Ph. Schneiter 663–666

Non-exercise activity thermogenesis.
J. A. Levine 667–679

How active are we? Levels of routine physical activity in children and adults.
M. B. E. Livingstone, P. J. Robson, J. M. W. Wallace & M. C. McKinley 681–701

Intestinal failure *(Symposium Proceedings: 4 September 2002)*

Chair: A. Pierro, *Institute of Child Health, London, UK*

The medical management of intestinal failure: methods to reduce the severity.
J. M. D. Nightingale 703–709

Surgical management of intestinal failure.
G. L. Carlson 711–718

Pennington Lecture

Recent developments in the delivery of home parenteral nutrition in the UK.
B. J. M. Jones 719–725

Gut failure and abdominal visceral transplantation.
K. Abu-Elmagd & G. Bond 727–737

Keynote Lecture

Tissue engineering of the gastrointestinal tract for surgical replacement: a nutrition tool of the future?
T. C. Grikscheit 739–743

Sir David Cuthbertson Medal Lecture

Impaired energy metabolism during neonatal sepsis: the effects of glutamine.
S. Eaton 745–751

Human energy metabolism *(Symposium Proceedings: 18 December 2002)*

Chairs: I. M. MacDonald and P. Greenhaff, *University of Nottingham, Nottingham, UK*

Fatty acid metabolism in obesity and type 2 diabetes mellitus.
E. E. Blaak 753–760

Home enteral feeding *(Symposium Proceedings: 11 April 2002)*

Chair: H. M. Roche, *Trinity College, Dublin, Republic of Ireland*

Home enteral-tube feeding: the changing role of the dietitian.
S. M. Madigan 761–763

Nutrition in the clinical management of disease
(*Symposium Proceedings: 27-28 March 2003*)

Chairs: J. Reilly, *University of Glasgow, Glasgow, UK;* **N. Hoggard,** *Rowett Research Institute, Aberdeen, UK;* **A. Payne,** *Glasgow Caledonian University, Glasgow, UK*

Changing perspectives in the nutritional management of disease.
A. M. Madden 765–772
Searching the evidence: the clinically-effective nutritionist.
H. Moore & C. Summerbell 773–776
Nutritional demands in acute and chronic illness.
R. A. Richardson & H. I. M. Davidson 777–781
Nutritional modulation as part of the integrated management of chronic obstructive pulmonary disease.
A. Schols 783–791
Can nutrition counselling be more behavioural? Lessons learned from dietary management of cystic fibrosis.
L. J. Stark 793–799
Oral protein–energy supplements for children with chronic disease: systematic review.
V. J. Poustie, R. M. Watling & R. L. Symth 801–806
The nutritional management of surgical patients: enhanced recovery after surgery.
K. C. H. Fearon & R. Luff 807–811

Optimal nutrition for osteoporosis prevention (*Symposium Proceedings: 18-20 June 2003*)

Chairs: F. Branca, *INRAN, Italy;* **S. Bügel and L. Ovesen,** *The Royal Veterinary and Agricultural University, Denmark;* **J. J. Strain,** *University of Ulster, Coleraine, UK;* **K. D. Cashman and A. Flynn,** *University College, Cork, Republic of Ireland*

Geographical differences in vitamin D status, with particular reference to European countries.
L. Ovesen, R. Andersen & J. Jakobsen 813–821
Vitamin D and bone health in early life.
C. Mølgaard & K. F. Michaelsen 823–828
The effect of physical activity and its interaction with nutrition on bone health.
N. M. Murphy & P. Carroll 829–838
Vitamin K and bone health.
S. Bügel 839–843
Is vitamin A consumption a risk factor for osteoporotic fracture?
M. E. Barker & A. Blumsohn 845–850
The role of dietary calcium in bone health.
A. Flynn 851–858
Dietary sodium as a risk factor for osteoporosis: where is the evidence?
B. Teucher & S. Fairweather-Tait 859–866
Dietary protein and bone health.
F. Ginty 867–876
Dietary phyto-oestrogens and bone health.
F. Branca 877–887
Intake of fruit and vegetables: implications for bone health.
S. A. New 889–899
Impact of genetic variation on metabolic response of bone to diet.
S. Cusack & K. D. Cashman 901–912

Abstracts of Communications

Differences in habitual physical activity and inactivity in young children from deprived versus wealthy families.
L.A. Kelly, J.J. Reilly, S. Grant & J.Y. Paton 2A

Early life risk factors for later obesity in contemporary children.
J. Armstrong, J.J. Reilly, A. Sherriff, A.R. Dorosty, P.M. Emmett, A. Ness, I. Rodgers, C. Steer & ALSPAC Study Team 2A

An integrated programme of nutrition, exercise and behavioural modification in a small group of obese 7–11-year-old children.
P.M. Sacher, L. Hogan, P. Chadwick & M.S. Lawson 3A

Seasonality in total energy expenditure and physical activity in young children in Glasgow.
A. Fisher, J. Reilly, C. Montgomery, L. Kelly, J. Paton & S. Grant 3A

Factors influencing the early introduction of solid feeding.
A.S. Anderson, B. Alder, J.S. Forsyth, P. Howie, P. Van Der Velde & F. Williams 4A

Effects of conjugated linoleic acid on prostaglandins produced by the cells isolated from maternal intercotyledonary endometrium, fetal allantochorion and amnion in late pregnant ewes.
Z. Cheng, M. Elmes, D.R.E. Abayasekara & D.C. Wathes 4A

Eating patterns and perceived healthiness of diet in the West of Scotland.
M. Ebrahimi-Mameghani, J.A. Scott & G. Der 5A

Antibody titres against heat shock proteins (HSPs) in metabolic syndrome and obesity.
M. Ghayour, D. Lamb, A. Taylor, C. Livingstone & G. Ferns 5A

Metabolism of dietary quercetin-4'-glucoside by cultured liver and intestinal cells.
B.A. Graf, R. Wilson, S.T. Caldwell, R.C. Hartley and M.E.J. Lean 6A

Therapeutic role of probiotics: dietitians perspective.
D. Shaw, H. Killala & C. Shortt 6A

Patient-centred outcomes in dietary research.
J.A. Jackson, S. Kinn & P. Dalgarno 7A

Changes in fasting plasma lipid concentrations after advice to follow the current dietary guidelines in healthy postmenopausal women.
S.R. Arefhosseini, S. Higgins & C.A. Edwards 7A

Intestinal transport of [2-^{14}C]quercetin-4′-glucoside across the rat small intestine.
R. Rajikan, A. Crozier, S.T. Caldwell, R.C. Hartley & C.A. Edwards 8A

Nutrition risk in community-living older people from the MAVIS trial (Mineral and Vitamin Intervention Study): a comparison.
A.I. Stephen, A.C. Milne, A. Avenell & G. McNeill for the MAVIS trial group 8A

Relationships between plasma phospholipid oleic and linoleic acid status and soluble intercellular adhesion molecule 1 concentration in healthy adults.
A.A. Winder, E.A. Miles, S. Kew, T. Banerjee, Y.E. Finnegan, A.M. Minihane, C.M. Williams & P.C. Calder 9A

Use of calibrated heart rate monitors to estimate CO_2 production rate during the ^{13}C-mixed triacylglycerol (MTG) breath test.
C. Slater, T. Preston & L.T. Weaver 9A

Alterations in faecal microflora and short-chain fatty acid concentrations following consumption of enteral formula by healthy subjects.
K. Whelan, P.A. Judd, V.R. Preedy & M.A. Taylor 10A

Effects of an 8-day exercise programme on energy balance in males and females matched for % body fat.
R. McLaughlin, D. Malkova & M. Nimmo 10A

A minute on the lips, forever on the waist! Does food intake affect our waistlines?
S.N. McCarthy, P.J. Robson, M.B.E. Livingstone, M. Kiely, A. Flynn, G.W. Cran & M.J Gibney 12A

Food and nutrient intakes across distributions of meat consumption in Irish adults.
M. Cosgrove, A. Flynn & M. Kiely 12A

Food and healthy eating during working hours: attitudes and behaviours of Western Health Board Staff.
J. Harrington, A.M. Lydon & D. Evans 13A
Attitudes towards perceived diets and actual dietary behaviour among Irish adults.
A.P. Hearty, S.N. McCarthy, J.M. Kearney & M.J. Gibney 13A
Stimulant drinks: consumption, context and risk factors across the island of Ireland.
D. Finnegan, G. Quinn & S. Nic Gabhainn 14A
Percentage body fat in Irish adults measured by bioelectrical impedance analysis compared with published prediction equations.
C.M. Murphy, M.A. Galvin, A. Flynn & M. Kiely 14A
Dietary restraint and the diets of Irish adults.
J.L. O'Neill, S.N. McCarthy & M.J. Gibney 15A
Percentage contribution of macronutrients to energy from foods eaten at home and outside the home: findings from the North/South Ireland Food Consumption Survey.
N.A. O'Dwyer, S.N. McCarthy, S.J. Burke, A.J. Wallace & M.J. Gibney 15A
Bioavailability of food folates in a controlled intervention study.
M.P.A. Hannon-Fletcher, N.C. Armstrong, J.M. Scott, M. Ward, J.J. Strain, K. Pentieva, A.A. Dunn, A.M. Molloy, M. Scullion & H. McNulty 16A
The effects of different processing methods on the *in vitro* accessibility of α- and β-carotenes from carrots.
J.J. Moylan, S.M. O'Sullivan & N.M. O'Brien 16A
Evaluation of the *in vivo* antioxidant activity of wheat bran in human subjects.
R.K. Beattie, A.M. Lee, J.J. Strain, R.J. Fletcher & R.W. Welch 17A
Effects of the inclusion of carrots in different forms in a mixed meal on post-prandial satiety and subsequent intakes.
S.A. Moorhead, M. McCourt, R.W. Welch, M.B.E. Livingstone, A.A. Burns & A. Dunne 17A
Phytosterol, tocopherol and squalene content of five edible nuts.
L.S. Maguire, K. Galvin, T.P. O'Connor & N.M. O'Brien 18A
Lycopene supplementation has no effect on IGF-1 status in healthy male subjects.
R. Graydon, J.V. Woodside & I.S. Young 18A
Use of nutritional supplements in Irish adolescents.
S. Byrne & C. Corish 19A
The impact of fortified foods on the level of inadequacy of micronutrient intake and non-compliance with dietary recommendations in Irish adults.
T. Joyce, E.M. Hannon, M. Kiely & A. Flynn 19A
The contribution of dairy products to the Irish diet.
S.J. Burke, S.N. McCarthy, N.A. O'Dwyer, A.J. Wallace & M.J. Gibney 20A
Phosphate and calcium intakes in forty-two haemodialysis patients.
F.N. Byrne, M. Kiely, A. Flynn, W.D. Plant & D.J. Murnaghan 20A
Comparison of vitamin D intake and status and serum parathyroid hormone in patients with Crohn's disease and healthy sex- and age-matched control subjects.
D. McCarthy, M. O'Brien, M. Kiely, F. Shanahan & K.D. Cashman 21A
Comparison of a 69-item food frequency questionnaire (FFQ) with a 14-day dietary history (DH) to estimate vitamin D intakes in 50–75-year-old Irish women.
A. Collins, M.M. O'Brien, A. Flynn, K.D. Cashman & M. Kiely 21A
Seasonal variation in vitamin D status in a group of 50–70-year-old Irish women.
T.R. Hill, M.M. O'Brien, M. Kiely, A. Flynn & K.D. Cashman 22A
Comparison of vitamin K intake and status and bone metabolism in patients with Crohn's disease and healthy sex- and age-matched control subjects.
P. Duggan, M. O'Brien, M. Kiely, F. Shanahan & K.D. Cashman 22A

Fruit and vegetable consumption and bone mineral density in adolescence: the Northern Ireland Young Hearts Project.
C. McGartland, P.J. Robson, L. Murray, G. Cran, D. Watkins, M. Rooney, J. Savage & C. Boreham 23A
Treatment of low bone mineral density in adult coeliac patients.
C. O'Neill, L. O'Shaughnessy & N.P. Kennedy 23A
Prevalence of osteoporosis and osteopenia among attenders at an eating disorder programme.
A. Freyne, M. Doyle, A. Clarke & M. Darby 24A
Independent and combined effects of 17 β-oestradiol and 1,25 dihydroxycholeciferol on transepithelial calcium transport in Caco-2 cells maintained in an oestrogen-depleted environment.
A.A. Cotter & K.D. Cashman 24A
Conjugated linoleic acid, a molecular determinant of cholesterol homeostasis in THP-1 derived macrophages?
S.M. Weldon, M.J. Gibney & H.M. Roche 25A
The involvement of caspase activation and PARP degradation in 7β-hydroxycholesterol-induced apoptosis.
L. Ryan, Y.C. O'Callaghan & N.M. O'Brien 25A
Cis-9, *trans*-11 conjugated linoleic acid and linoleic acid modulate the nuclear factor-κB family of transcription factors.
A.P. Nugent, M.J. Gibney & H.M. Roche 26A
The influence of composite foods on estimates of habitual meat intakes.
M. Cosgrove, A. Flynn & M. Kiely 26A
An exploratory investigation into the diets of student smokers and non-smokers.
M. Smith & J.R.A. Reekie 27A
Vitamin C and E: main and interactive acute effects on DNA damage in human lymphocytes measured by the Comet Assay.
S.W. Choi, J.J. Strain, B. Hannigan & I.F.F. Benzie 27A
Bilirubin and cardiovascular risk in the PRIME study.
J.A. Troughton, J.V. Woodside, I.S. Young, C.C. Patterson, D. Arveiler, P. Amouyel, J. Ferrieres, P. Ducimetriere, J.W.G. Yarnell & A. Evans 28A
The protective effects of antioxidants against UVA-induced DNA damage.
Y.C. O'Callaghan, A.E. O'Dwyer, M.M. Hodnett & N.M. O'Brien 28A
Effects of oat bran intake on postprandial antioxidant capacity and total phenolic content of plasma and urine.
A.M. Lee, R.K. Beattie, J.J. Strain & R.W. Welch 29A
Flavour release from gelatin, starch and pectin gels.
A.B. Boland & S.M. Van Ruth 29A
B-vitamins and asymmetric dimethylarginine: a placebo-controlled study.
S.E.C.M. Gilchrist, J.V. Woodside, I.S. Young, J.W.G. Yarnell, K.F. Gey & A. Evans 30A
Human milk oligosaccharides and intestinal permeability in Egyptian infants.
S.K. Stranders, C.A. Northrop-Clewes, G.A. Yamamah, M.E. Abou-Zekri & D.I. Thurnham 30A
The effect of conjugated linoleic acid on viability and metabolic activity of human SaOS-2 osteoblastic cells.
S. Cusack, C. Jewell & K.D. Cashman 31A
Effect of medium-chain fatty acids on Caco-2 cell transepithelial calcium transport.
C. Jewell & K. Cashman 31A
The effect of 1,25 dihydroxycholeciferol on calcium transport in intestinal-like Caco-2 cells.
M. Butler, C. Jewell & K.D. Cashman 32A
Relationship between sources of vitamin D, sunlight exposure and diet, and bone mineral density in a group of Spanish elderly women.
L. Quintanilla, C. Cuadrado, N. Lillo, O. Moreiras, S. Pozo, M. Rodríguez, V. Rodríguez,

B. Ruíz-Roso & G. Varela-Moreiras 32A

Vitamin D status in two risk groups from four European countries.
R. Andersen, C. Brot, K.D. Cashman, J. Charzewska, A. Flynn, J. Jakobsen, M. Kärkkäinen, M. Kiely, C. Lamberg-Allardt, O. Moreiras, C. Mølgaard, A.M. Natri, M. O'Brien & L. Ovesen 33A

The impact of using revised food composition data for vitamin D on estimates of vitamin D intakes in 18-64 year-old Irish adults.
T.R. Hill, M.M. O'Brien, K.D. Cashman, A. Flynn & M. Kiely 33A

Sources of Vitamin D -sunlight exposure and diet- in two Spanish age groups: elderly women and adolescent girls.
N. Lillo, C. Cuadrado, L. Pérez-Olleros, S. Pozo, L. Quintanilla, M. Rodríguez, V. Rodríguez, G. Varela-Moreiras & O. Moreiras 34A

Antioxidant and nitric oxide inhibitory activity of isoflavone metabolites.
K. Vafeiadou, B.A. Ewins, S. de Pascual-Teresa, U. Uchida, S. Matsugo, A.M. Minihane, R. Turner, P.D. Weinberg & G.H. Rimbach 36A

Skeletal calcium accretion and calcium intake in young females during puberty: data from a 3-year longitudinal study on bone health.
J.A. Nurmi-Lawton, A. Baxter-Jones, J.A. Bishop, P. Taylor, C. Cooper & S.A. New 36A

Maternal undernutrition during early to mid-pregnancy and the programming of mitochondrial cytochrome *c* and voltage-dependent anion channel (VDAC) in the ovine fetal and juvenile lung.
D.P. Yakubu, G.S. Gopalakrishnan, A. Mostyn, M.E. Symonds & T. Stephenson 37A

Maternal supplementation during pregnancy, breast-feeding and early childhood diet as predictors of childhood cognitive function in the 1946 Birth Cohort.
K.D. Barwell, M. Richards, G. Mishra, M.E.J. Wadsworth & C. Bolton-Smith 37A

Effect of maternal nutrient restriction in early to mid-gestation on blood pressure control at 2 years of age in the resulting offspring in sheep.
G.S. Gopalakrishnan, S.M. Rhind, C.E. Kyle, A.N. Brooks, R.M. Walker, M.M. Ramsay, T. Stephenson & M.E. Symonds 38A

Maternal nutrient restriction during early to mid-gestation alters insulin-like growth factor I (IGF-I) mRNA abundance independent of alterations in growth hormone receptor (GHR) mRNA abundance in the ovine fetal kidney.
K. Brennan, G.S. Gopalakrishnan, S.M. Rhind, C.E. Kyle, A.N. Brooks, M.T. Rae, T. Stephenson, D. Olson & M.E. Symonds 38A

Protein supplementation at specific stages of gestation can promote growth of fetal organs associated with immune competence as well as adipose tissue deposition in sheep.
G. Hopkins, D. Gardner, S. Pearce, E. Butt, J. Bispham, K.H.S. Campbell, M.M. Ramsay & M.E. Symonds 39A

Is the relationship between iron intake and body iron levels modulated by genotype? Results from the UK Women's Cohort Study.
J.E. Cade, J.A. Moreton, B.A. Bratley, J.A. Randerson-Moor, K. Kukalizch, V.J. Burley, D.C. Greenwood, D. Thompson, M. Worwood & D.T. Bishop 39A

Identification of human cytochrome P450s and UDP-glucuronosyl transferases involved in genistein metabolism.
L.E. Pritchett, K.M. Atherton, E. Mutch & D. Ford 40A

The effect of dietary zinc deficiency on expression of zinc transporter mRNAs in mouse placenta.
R.M. Russi, S.R. Phillips, J.M. Piper, J.C. Mathers & D. Ford 40A

The influence of docosahexaenoic acid on endothelial function and arterial compliance in healthy young male subjects.
H.E. Theobald, T.A.B. Sanders, E.A. Asbury, C.S. Hayward & P. Collins 41A

Postprandial lipaemia induced by cocoa butter compared with an inter-esterified blend of totally hydrogenated and unhydrogenated high oleic sunflower oil.
S.E.E. Berry & T.A.B. Sanders 41A
Randomized placebo controlled trial of a daily intake of 200 mg docosahexaenoic acid in vegans.
Z. Lloyd-Wright, R. Preston, R. Gray, T.J.A. Key & T.A.B. Sanders 42A
Plasma conjugated linoleic acid concentrations in vegan, vegetarian and omnivore men recruited into the EPIC study: 9-*cis*, 11-*trans* octadecadienoic acid are markers of the intake of ruminant derived fat.
Z. Lloyd-Wright, T.J.A. Key, N. Allen & T.A.B. Sanders 42A
Influence of an alkaline mineral water on postprandial lipaemia in postmenopausal women.
S. Schoppen, A.M. Perez-Granados, B. Sarriá, S. Navas, A. Carbajal, F. Sanchez-Muniz & M.P. Vaquero 43A
Relationship between increased intake of isomers of conjugated linoleic acid and the appearance of those isomers in plasma lipids in humans.
B. Lupoli, G.C. Burdge, S. Tricon, S. Kew, T. Banerjee, K.E. Kliem, K.J. Shingfield, D.E. Beever, R.F. Grimble, C.M. Williams, P. Yaqoob & P.C. Calder 43A
The *in vivo* rate of postprandial glycogen synthesis in glucocorticoid-treated rats maintained on different high protein diets.
L. Boukarim, N. Hwalla, N. Torbey & O.A. Obeid 44A
The effect of diet supplementation with glutamine, dihydroxyacetone and leucine on the *in vivo* rate of postprandial glycogen synthesis.
S.T. Bitar, N. Hwalla, N. Torbey, P.W. Emery & O.A. Obeid 44A
Life-long Food Skills: promoting healthy eating to looked after children.
J. Pitt, O. Yeates, J. Robinson & L. Levy 45A
Sexual dimorphism in fat patterning in a sample of 5–6-year-old children in Oxford.
J. Webster-Gandy, J. Warren & C.J.K. Henry 45A
Trends in waist:height ratios in British children aged 11–16 years over a two-decade period.
H.D. McCarthy & M. Ashwell 46A
Upper and lower body dimensions and proportions of children classified as overweight or obese by the Body Mass Index.
L. Doyle & H.D. McCarthy 46A
Interaction between the Pro12Ala polymorphism of the peroxisome proliferator-activated receptor gamma 2 gene and dietary fatty acids in relation to body fat.
C. Vlassi, L.F. Masson, H. McCallum, P. Haggarty & G. McNeill 47A
Physical properties of stearic-acid-rich triacylglycerols modulate effects on postprandial lipaemia.
S.E.E. Berry & T.A.B. Sanders 47A
Effects of high and low glycaemic index foods on an atherogenic lipoprotein phenotype.
I.G. Davies, A. Wheeler, T. Mann, J.W. Wright & B.A. Griffin 48A
Apolipoprotein E genotype and the association between habitual dietary fat intake and lipid levels.
L.F. Masson, A. Cumming, C. Tuya & G. McNeill 48A
Inter-individual variation and distribution of labelled vitamin E in plasma, erythrocytes, platelets and lymphocytes.
Y.M. Jeanes, W.L. Hall & J.K. Lodge 49A
Absorption of labelled vitamin E after ingestion of different breakfasts.
Y.M. Jeanes, S. Ellard, E. Lee, W.L. Hall & J.K. Lodge 49A
Comparison of surrogate measures of insulin sensitivity and resistance with the minimal model in Indian Asians and Caucasians.
L.M. Brady, S. Lovegrove, B.A. Gower, C.M. Williams & J.A. Lovegrove 50A
Food variety and its impact on food consumption in the elderly.
J.H. Hollis, C.J.K. Henry & M.S. Joshi 50A

Prevalence of chronic diseases in relation to socio-demographic, lifestyle and dietary factors in Scottish adults.
M. Ebrahimi-Mameghani, J.A. Scott & G. Der 51A
Variability in the zinc content of rice is important for human nutrition and is related to the soil environment in Bangladesh.
A.B. Mayer, M.C. Latham, J.M. Duxbury, N. Hassan & E.A. Frongillo 51A
Effect of moderate weight loss on the serum oestrogen, testosterone and leptin levels in obese men.
A. Djazayery, M. Maddah, M.R. Eshraghian, M. Jalali & R. Mirdamady 52A
Are overweight shoppers a risk factor for the prevalence of obesity in families?
J.K. Ransley, J.K. Donnelly, H. Botham, T.N. Khara, H. Arnot, J.E. Cade & D.C. Greenwood 52A
Determinants of plasma homocysteine in ischaemic heart disease patients.
P. Tighe, M. Ward, O. Finnegan, H. McNulty, J.J. Strain, A.M. Molloy & J.M. Scott 53A
Impact of definitions of eating events on energy intake and body weight status: analysis of the UK Women's Cohort Study.
B.A. McNulty & V.J. Burley 53A
Dietary habits of the homeless.
S.G. Arthur, A.F. Hackett & S.M. Maxwell 54A
How much is enough? Estimates of portion sizes of wholegrain foods.
A.R. Jones, R.H. Grimshaw, D.P. Richardson & C.J. Seal 54A
The effect of satiety on perceptions of usual food portion size.
L.J. Beasley 55A
Analysis of the nutritional intake of abstaining and relapsing alcoholics.
M.J. Chao, M. Nelson, V.R. Preedy & T.J. Peters 55A
A study of breast-feeding in the south-east region of the Islamic Republic of Iran.
M. Sargazi , F. Khoshabi, F. Hormozi, F. Fakhireh, M. Saeb, A. Maleki, M. Firoozkoohi, H. Shahryari, A. Hackett & S. Maxwell 56A
Thiamin intake and status of nulliparous women in the first trimester of pregnancy and breakfast-cereal consumption.
G.A. Rees, Z.M. Brooke & W. Doyle 56A
Assessment of food 'quality' in Saudi Arabian premenopausal and postmenopausal women: implications for bone health.
S.O. Khoja, J.A. Khan & S.A. New 57A
Is salt an important risk factor for osteoporosis? A systematic review of the evidence.
C. Tilney, D.J. Torgerson, M. Al-Janabi & S.A. New 57A
Estimates of acid–base balance in the diets of older Scottish women.
C.J. Prynne & C. Bolton-Smith 58A
Effect of soya isoflavones and metabolites on paracellular permeability in various breast cell lines.
C.C. Flanagan, P.J. Magee & I.R. Rowland 58A
Increased fruit and vegetable consumption increases the ferric reducing ability of plasma (FRAP) of free-living postmenopausal women.
S.R. Arefhosseini, S. Higgins & C.A. Edwards 59A
Genetic determinants of iron status.
Y. Pasdar, M. Nelson & J. Powell 59A
Estimation of mean intakes of fourteen classes of dietary phenols in a population of male shift workers.
E. Woods, M.N. Clifford, M. Gibbs, S.M. Hampton, J. Arendt & L.M. Morgan 60A
In vivo antioxidant status in a population of vegetarians and omnivores.
S. Haldar, Y.A. Barnett, J. Powell, J. Fletcher, D. Talbot & I.R. Rowland 60A
Antioxidant activity and cell effects of anthocyanins and vitisins from red wine.
M. García-Alonso, R. Turner, J.C. Rivas-Gonzalo, A.M. Minihane, G.H. Rimbach & S. de Pascual-Teresa 61A

The chronic effects of alcohol feeding on mitochondrial and cytosolic superoxide dismutase, catalase and glutathione peroxidase mRNA levels in skeletal muscle: is there a gender difference in response?
T. Nakahara, R. Hunter, R. Rajendram, K. Hashimoto, M. Hirano, C.R. Martin & V.R. Preedy 61A
The effects of chronic alcohol exposure on the mRNA and protein levels of skeletal muscle heat-shock proteins.
T. Nakahara, R Hunter, A. McArdle, C.S. Broome, K. Hashimoto, M. Hirano, C.R. Martin & V.R. Preedy 62A
The effects of acute alcohol exposure on skeletal muscle *c-myc*, *p53* and *Bcl-2* mRNA and the modulating influence of starvation.
T. Nakahara, R. Hunter, K. Hashimoto, M. Hirano, M. Koll, C.R. Martin & V.R. Preedy 62A
An investigation of the effects of black tea (*Camellia sinensis* (L)) on postprandial glycaemia in healthy humans.
J. Bryans, P.A. Judd & P.R. Ellis 63A
Influence of soya isoflavone consumption on plasma total antioxidant capacity in young women.
E.J. Lynn & H. Wiseman 63A
A linear relationship exists between the absorption of xanthophylls by individuals and their absorption of carotenes following enhanced consumption of fruits and vegetables.
M.H. Gordon, A.F. Walker & W.G. Roberts 64A
Variation in dietary supplement use in perimenopausal and early postmenopausal Scottish women.
H.M. MacDonald, S.A. New & D.M. Reid 64A
Effect of prebiotics on mineral bioavailability in rats.
L.M. Ybarra, N.M.B. Costa, P.R. Cecon & C.L.L.F. Ferreira 65A
Magnesium bioavailability is not affected by consumption of an infant formula supplemented with long-chain polyunsaturated fatty acids in rats.
M.P. Vaquero, M. Veldhuizen & B. Sarriá 65A
Apolipoprotein E genotype as a determinant of plasma F_2-isoprostane levels.
A.M. Minihane, Y. Hu, M. Dietrich, G.H. Rimbach, J.D. Marrow, E. Matthews, G. Keyoumu, L. Packer & G. Block 66A
The influence of apolipoprotein E genotype on LDL cholesterol in middle-aged men and women, following supplementation with a low dose of docosahexaenoic acid.
H.E. Theobald, S.E. Humphries & T.A.B. Sanders 66A
Differential effects of *n*-3 polyunsaturated fatty acids on lymphocyte activation.
M.D. Mesa, S. Kew, S. Tricon, R. Buckley, A.M. Minihane & P. Yaqoob 67A
Hypotriacylglycerolaemic effects of eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA).
R. Turner, R. Buckley, J.E. Luff & A.M. Minihane 67A
Effects of EPA versus DHA on the oxidizability of low-density lipoprotein.
M.D. Mesa, R. Buckley, A.M. Minihane & P. Yaqoob 68A
Docosahexaenoic acid lowers blood pressure in middle-aged men and women.
H.E. Theobald, P.J. Chowienczyk & T.A.B. Sanders 68A
Gene expression changes following supplementation with sodium selenite analysed by a custom-made 'selenoprotein' array.
S. Villette, S. Dillon, F. McArdle, J.R. Arthur & J.E. Hesketh 69A
The effect of zinc supplementation in human subjects on the expression in small intestine of the zinc transporter hZTL1.
R.A. Cragg, S.R. Phillips, J.M. Piper, F.C. Campbell, J.S. Varma, J.C. Mathers & D. Ford 69A
DNA methylation and S-adenosylmethionine:S-adenosylhomocysteine (SAM:SAH) ratio in colorectal carcinogenesis.
G. Varela-Moreiras, M.P. González, R. Póo & E. Alonso-Aperte 70A

The effect of dietary calcium supplementation on short-term zinc kinetics in elderly osteoporotic women.
N.M. Lowe, M.C. Ip, C.I.A. Jack, N. Carmichael, W.D. Fraser & M.J. Jackson 70A
Differential effects of selenium supply on expression of thioredoxin reductase isoforms in different tissues.
L.K. Crosley, F. Nicol, J.E. Hesketh & J.R. Arthur 71A
Expression of the sodium-dependent vitamin C transporters SVCT1 and SVCT2 in vascular cells.
R.M. Ogborne, S.A. Rushworth & M.A. O'Connell 71A
Selenoprotein gene expression in an intestinal cell line during selenium depletion: a macroarray approach indicates effects on SelW and glutathione peroxidase 1.
V. Pagmantidis, S. Villette, G. Bermano, J. Broom, J.R. Arthur & J.E. Hesketh 72A
Effects of selenium deprivation on the survival of lymphoid and colonic cell lines in culture.
M.J. King, R. Heywood, V. Pagmantidis, J.C. Mathers & J.E. Hesketh 72A
Development of a method for quantifying radioactivity in proteins in sodium dodecyl sulphate-polyacrylamide gels.
S.B. Zhou, M.J. Bailey, M.J. Dunn, V.R. Preedy & P.W. Emery 73A
A systematic investigation into protein loss during two-dimensional gel electrophoresis.
S.B. Zhou, M.J. Bailey, M.J. Dunn, V.R Preedy & P.W. Emery 73A
A proteomic approach to measure protein expression in a model of muscle protein accretion.
M.J. Bailey, J.A. Westbrook, M.J. Dunn, V.R. Preedy & P.W. Emery 74A
Differential sensitivity of HCT116 and HCT116 3–6 colon cancer cells to butyrate.
D.M. Marland, E.A.Williams, W. Bal, B.K. Shenton & J.C. Mathers 74A
The influence of dietary iron levels on the expression of iron transporter genes in rat colon.
K.L. Johnston, C. Soromani & P.A. Sharp 75A
Screening for novel single nucleotide polymorphisms in gene regions corresponding to 3′untranslated regions of glutathione peroxidases 1 and 4 and thioredoxin reductase 1.
S. Villette, L.K. Crosley, F. Caple, J.R. Arthur & J.E. Hesketh 75A
Maternal dietary protein restriction during pregnancy alters the expression of peroxisomal proliferator-activated receptors in the liver and adipose tissue of the offspring after weaning.
G.C. Burdge, K.A. Lillycrop, R.L. Dunn, E.S. Phillips & A.A. Jackson 76A
Effects of drinking an alkaline mineral water on renal calcium conservation and bone turnover in postmenopausal women.
S. Schoppen, C. De La Piedra, A.M. Perez-Granados, A. Carbajal & M.P. Vaquero 76A
Dietary adequacy in a Swiss elderly population: developmental work of a Swiss Food Frequency Questionnaire (FFQ).
E. Wynn, M.A. Krieg, J. Cornuz, D.R Whittamore, P. Burckhardt & S.A. New 77A
The effect of selenium on mood and quality of life: results from the UK PRECISE Trial pilot study.
M.P. Rayman, M. Warren-Perry, J. Catterick, J. Bliss, E. Hall & D. Lawrence 77A
The role of collagen hydrolysate on joint health.
S. Oesser 78A
The role of hepatic nuclear factor 4-α (HNF4α) in mediating the effects of dietary saturated fatty acids on the expression of the microsomal triglyceride transfer protein gene.
T. Vallim, J. Lamb, H.M. Sims, A.J. Bennett, M.A. Billett, D.A. White & A.M. Salter 78A
Postprandial leucocyte increase following a fatty meal is not related to FVII activation.
T.A.B. Sanders, S.E.E. Berry & G.J. Miller 79A
Suppression of the plasma ghrelin response during a 3-week fat-supplemented diet in healthy young men.
M.D. Robertson, R.A. Henderson, G.E. Vist & R.D.E. Rumsey 79A
Downregulation of hepatic mRNA expression of ghrelin is associated with maternal undernutrition during late gestation in the postnatal sheep.
E.A. Butt, S. Pearce, J. Bispham, M.E. Symonds & T. Stephenson 80A

Relationship between changes in percentage energy from dietary carbohydrate and changes in plasma lipid concentrations in healthy postmenopausal women.
S.R. Arefhosseini, S. Higgins & C.A. Edwards 80A
The effect of low- and high-glycaemic-index meals on appetite, satiety and energy intake after 6 d low- or high-glycaemic-index diet.
A. Norouzy, A.R. Leeds & P.W. Emery 81A
Investigation of the action of pancreatic α-amylase on starches from different botanical sources.
R.Y. Tahir, P.R. Ellis, P.J. Butterworth & L. Hartley 81A
The glycaemic index and glycaemic load of decorticated finger millet.
N.G. Malleshi, H.J. Lightowler & C.J.K. Henry 82A
The relationship between dietary Glycaemic Index and urinary chromium in British adults.
M. Haji Faraji, A.R. Leeds, J. Powell & G. Frost 82A
A reduction in glucose absorption is observed in the presence of dietary polyphenols using the Caco-2 cell model of human intestinal absorption.
K.L. Johnston, P.A. Sharp, M.N. Clifford & L.M. Morgan 83A
Sedentary lifestyles are associated with being overweight and consumption of savoury snacks in young people (4–18 years).
K.L. Rennie & S.A. Jebb 83A
Food fortification in the UK: impact on calcium intake in young people aged 4–18 years.
C.W. Thane & C. Bolton-Smith 84A
FAST: Food Assessment in Schools Tool.
A.J. Adamson, J.M. Griffiths, L.E. Carlin, K.L. Barton, W.L. Wrieden, J.N.S. Matthews & J.C. Mathers 84A
A comparison of children's and adult's ability to estimate portion size using food photographs.
E. Foster, M. Nelson & A.J. Adamson 85A
How accurate are standard children's food portion sizes for estimation of dietary intake of children of different ages?
K.L. Barton, W.L. Wrieden, P.J. Longbottom, A.J. Adamson & S.A. Ogston 85A
The development of a dietary assessment tool for school children aged 3 to 7 years.
L. Frear, D.C. Greenwood & J.E. Cade 86A
A nutrition education intervention to increase the fruit and vegetable intake of denture wearers.
J. Bradbury, J.M. Thomason, N.J.A. Jepson, A.W.G. Walls, P.F. Allen & P.J. Moynihan 86A
The nutrition knowledge of older adults living in sheltered housing accommodation.
C.E. Wood, R. Prasad, A.J. Adamson, R. Stacy, J.C. Mathers & P.J. Moynihan 87A
Determinants of adequate daily energy intake (energy intake – energy expenditure) on expeditions.
K.M. Appleton 87A
Homocysteine and B-vitamin intake are associated with alcohol consumption.
J.V. Woodside, P.M.L. Skidmore, J.W.G. Yarnell, I.S. Young, D.L. Harmon, A.S. Whitfield, K.F. Gey & A. Evans 88A
Effect of nausea and vomiting in pregnancy on food intake in early and late pregnancy.
B. Al-Rasasi, J. Coad & J. Morgan 88A
Stability over time of dietary patterns in the UK Women's Cohort Study.
D.C. Greenwood, M.S. Gilthorpe, C. Golding & J.E. Cade 89A
Socio-economic and geographical differences in the consumption of fresh fruit and vegetables in the diets of families in Scotland and England in the 1930s: the Boyd Orr cohort.
C. Frobisher, M. Maynard, P. Emmett, G. Davey Smith, S. Frankel, A. Ness & D. Gunnell 89A
Degree of adherence to dietary recommendations of African Americans and Latinos in the USA.
S. Sharma, S.P. Murphy, L. Wilkens & L. Kolonel 90A
Fatty acid composition of human milk from the Thessaloniki region in Greece: comparison with dietary habits and food intakes.
D.J. Triantafillou & H. Katsikas 90A

Development of a questionnaire and a software program of dietetic advice designed for menopausal–perimenopausal women: application in Spain.
M. Basagoiti, N. Úbeda, G. Varela-Moreiras & E. Alonso-Aperte 91A
High saturated and low unsaturated dietary fat intakes and high prevalence of risk factors of coronary heart disease among urban middle-aged office workers in Sri Lanka.
C.P. Alahakoon & K.D.R.R. Silva 91A
The effect of altered glycaemic index breakfasts on subsequent food intake and satiety in children aged 9–12 years.
J.M. Warren & C.J.K. Henry 92A
Temporal changes in anthropometric measurements, dietary intake measures and health status in the frail elderly living in residential care.
W.S. Leslie, L. McCombie, M.E.J. Lean & C.R. Hankey 92A
The effect of eating environment on energy intake in the elderly.
M.R.D. Gibbons & C.J.K. Henry 93A
